☐☐☐☐: Look for distributor to market Swiss developed Thymio education robot

☐☐☐☐**Email:** sales.asia@easytis.com

☐☐☐☐: Hi X-Robot, Thanks! Thymio is developed by Swiss Federal Institute of Technology in Lausanne (EPFL) and the Lausanne Arts School (ECAL). The best part of Thymio is compact, robust (enough to be mishandled by children), build-in large set of sensors, actuators, open source program plus ready to use program environment. Thymio is compatible with LEGO bricks (<https://www.youtube.com/watch?v=2UXdcm9aGcM>), another example work with LEGO (<https://www.youtube.com/watch?v=JyOFJ9S-nm4>). Thymio is developed in Switzerland and well known in Switzerland and France for part of STEM education. We are looking distributor in Taiwan for Thymio robot distribution. Look forward to hearing you soon!

Hi, I hope you are well. I found your store by going through an official list of LEGO Education distributors. You provide a wide variety of products. Do you also sell any educational materials to help instructors teach robotics classes using LEGO WeDo and Mindstorms? If you wish to add quality lesson plans to complete your offer, then I would love to get in touch to see how our companies could cooperate in the future. Would you be open to an email exchange or a quick call? If not, could you, please, refer me to a person with whom I could further discuss this opportunity? Have a lovely day!
